Stainless Steel Satin

BRONTE BIN

Cylindrical single litter bin for indoors or outdoor undercover. 360° panel design in hardwood or Duraslat™ XG finish, stainless-steel lid, plinth dbase.

Description

Bronte Litter Bin Single is an enduring classic—trusted in shopping centres for over 20 years and celebrated for its timeless design and practical performance. The warmth of Hardwood or Duraslat™ XG battens complements its clean, functional form, bringing natural appeal to high-traffic environments.

A hygienic stainless-steel lid is easy to wipe down, while the spun form features softened edges for added safety. The gently sloped chute prevents waste build-up on top, and thoughtful additions like a non-scratching plinth and optimally positioned bump rail help minimise impact damage from trolleys. Bronte continues to set the standard for stylish, hard-wearing waste solutions.

How to Specify

Select your bin body finish - hardwood or Duraslat™ XG
Select your lid type - concave or convex
Select optional Pacific hood for outdoor use
Select your fixing

Sustainability

Certified Hardwood
All hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world's largest forestry certification system.

Recycled Materials
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Duraslat™ XG is made from 90% of recycled hardwood fibres and reclaimed plastic materials, which reduces demand for virgin materials.

Low Pollutants
Our powder-coating process doesn't emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).

Finishes

Made In	Australia
Lead Time	4-6 weeks

BRONTE BIN

Assembly & Delivery	Shipped fully assembled.
Fixing Detail	Freestanding or surface fixed by others. Anchors not included.
Care Instructions	Hardwood Cleaning Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth. Finish Our hardwood is finished with Sikkens Cetol BLX-Pro, a water-based, semi-transparent stain that protects the timber from weathering and enhances its grain and colour. To maintain, clean and lightly sand the timber, then brush on 2–3 coats of Cetol BLX-Pro in the direction of the grain every 12 months, or sooner if it starts to grey. Duraslat™ XG Cleaning Simply wash down occasionally. Do not use high pressure cleaners. Stainless Steel Wash the surface regularly using warm water containing soap or mild detergents and rinse the surface with fresh water after cleaning. When polishing the surface with a soft dry cloth to ensure all moisture is removed, follow the direction of the grain finish. Use a brush or soft damp cloth to remove loose deposits. Use a cream cleanser and soft cloth for difficult deposits. Use “Star Brite Rust Stain Remover” to remove tea staining and “Star Brite Chrome & Stainless Steel Polish” to protect the surface after cleaning. Never use cleaners containing harsh abrasives or high bleach contents. Prolonged contact with chlorine-based cleaners will cause surface pitting, which cannot be repaired. Never use abrasive materials such as scouring pads, steel wool or metallic scrapers. For stubborn stains or where "deep cleaning" is required, a mild abrasive cleaner or rust remover may be required.
Warranty	5-year warranty. View the warranty for more details.

BRONTE BIN

Customisable	Loose convex lid available for partially exposed locations to assist with water shedding The galvanised liners has drainage holes for rain runoff and won't melt if lit cigarette butts are accidentally thrown into the bin Various lid configurations available to suit a multitude of specific location requirements.
Additional Comments	Lid Options Concave, loose - ideal for indoor use Convex, loose Convex, hinged - ideal for outdoor use Pacific hood, hinged - shields chute from weather and birds Duraslat™ XG is a low maintenance, wood-look option without the hassle of oiling. The bump rail is tried and tested to protect your bins from trolley impact in shopping centres. A loose, non-marking plinth is easy to use and flexibly move around without scratching or damaging your floors.
