Care Instructions	**Care + Maintenance** **Powder-coat** Regular cleaning helps protect the long-term appearance of powder-coated finishes. Wash surfaces with warm water and a non-abrasive, pH-neutral detergent, using a soft cloth or brush, then rinse thoroughly. Avoid harsh solvents, abrasive cleaners and high-pressure washing, as these may damage the coating. In coastal, marine or industrial environments, increase cleaning frequency to minimise the build-up of salts and pollutants which can accelerate weathering.
