MAROUBRA CAPSULE BIN

MAROUBRA CAPSULE BIN

Unique, compact, single bin for commercial spaces, indoors or undercover. 70L capacity. Powder-coated steel frame. 4 perforation patterns.

Description

Maroubra Capsule Bin offers a compact, durable solution for waste collection in high-traffic public spaces, both indoors and in undercover outdoor areas. Its streamlined design—with no hood—maintains clean sight lines, while the stable base and protective glides ensure safety and floor preservation.

Perforation patterns add visual interest and contrast beautifully with the galvanised inner liner, while also deterring graffiti and providing a finger-safe surface for added peace of mind. Available in plain or 4 perforation patterns and finished in your choice of powder-coat colours, Maroubra is a practical, stylish addition to any commercial setting.

How to Specify

Select your body pattern
Select your body powder-coat colour
Select your freestanding base powder-coat colour

Sustainability

Recycled Materials
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Low Pollutants
Our powder-coating process doesn't emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).

Finishes

Lid
3mm stainless steel, satin polished

Body
Powder-coated, zinc-primed steel with perforations or plain

Perforation Patterns
Speckle, Morse, Windows, Wedge

Powder-Coat
Standard or custom specified colour

Base
Powder-coated steel with fixed glides

MAROUBRA CAPSULE BIN

Care Instructions	**Care + Maintenance** **Powder-coat** Regular cleaning helps protect the long-term appearance of powder-coated finishes. Wash surfaces with warm water and a non-abrasive, pH-neutral detergent, using a soft cloth or brush, then rinse thoroughly. Avoid harsh solvents, abrasive cleaners and high-pressure washing, as these may damage the coating. In coastal, marine or industrial environments, increase cleaning frequency to minimise the build-up of salts and pollutants which can accelerate weathering.
Warranty	5-year warranty. View the warranty for more details.
Customisable	The bin body can be left plain or perforated. Customise the base to your brand colours or waste channels. Install bins in pairs to create general waste and recycling units. Options to add logos as part of the perforations on your single bins for extra branding.
Additional Comments	The square freestanding base is stable for loose use, with non-scratching glides to protect flooring. The galvanised liner won't melt if lit cigarette butts are accidentally thrown into the bin. The perforated body not only casts distinctive shadowing and contrasts with the galvanised inner liner but also deters marker vandalism. Perforation designs are child safe, conforming to AS4685.1 finger entrapment guidelines on play equipment. The low profile is ideal for retail locations to maintain tenancy sight lines.
