AVOCA BIN LITTER BIN SINGLE

Modern single litter bin for indoors and out. Cladding in hardwood batten. Stainless-steel lid and plinth.

Description

Avoca Litter Bin Single brings soft curves and a contemporary silhouette to waste management. Its distinctive reuleaux triangle shape blends effortlessly into both indoor and outdoor environments, offering a relaxed yet refined presence in any setting.

Despite its compact footprint, Avoca is available in three different configurations (*also available in Double or Triple configurations*) and can cleverly accommodates up to three internal waste channels—for added capacity and flexibility. Clear, visible signage enhances user experience and reduces maintenance time. Finished with hardwood battens available in a variety of colour options and profiles, complimented by a satin-polished stainless-steel lid and plinth.

How to Specify

Select your capacity
Select your signage type
Select your slat finish
Select your fixing type

Sustainability

Certified Hardwood
All hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world's largest forestry certification system.

Recycled Materials
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Low Pollutants
Our powder-coating process doesn't emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).

Fixing Detail	Freestanding or surface fixed by others. Anchors not included.
Care Instructions	Hardwood Cleaning Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth. Finish Our hardwood is finished with Sikkens Cetol BLX-Pro, a water-based, semi-transparent stain that protects the timber from weathering and enhances its grain and colour. To maintain, clean and lightly sand the timber, then brush on 2–3 coats of Cetol BLX-Pro in the direction of the grain every 12 months, or sooner if it starts to grey. Stainless Steel Wash the surface regularly using warm water containing soap or mild detergents and rinse the surface with fresh water after cleaning. When polishing the surface with a soft dry cloth to ensure all moisture is removed, follow the direction of the grain finish. Use a brush or soft damp cloth to remove loose deposits. Use a cream cleanser and soft cloth for difficult deposits. Use “Star Brite Rust Stain Remover” to remove tea staining and “Star Brite Chrome & Stainless Steel Polish” to protect the surface after cleaning. Never use cleaners containing harsh abrasives or high bleach contents. Prolonged contact with chlorine-based cleaners will cause surface pitting, which cannot be repaired. Never use abrasive materials such as scouring pads, steel wool or metallic scrapers. For stubborn stains or where "deep cleaning" is required, a mild abrasive cleaner or rust remover may be required.
Warranty	5-year warranty. View the warranty for more details.
Additional Comments	Manage recycling by splitting your waste streams. Chutes act as limiters to signal recycling and save labour in sorting.
