PROSPECT BIN CORRAL

Bins » Bin Housings

Robust double or triple wheelie bin enclosure ideal for parklands. Galvanised or powder-coated steel frame with 5 Duraslat™ XG batten finishes.

Description With robust materials and striking asymmetrical corner details, the Prospect bin corral provides a wheelie bin enclosure with large capacity to handle anything you can throw at it. The bin housing restricts the size of waste that is deposited and is ideal for parklands and streetscapes with minimal supervision in remote areas. Galvanised or powder-coated steel frame in 27 colours with 5 Duraslat™ XG batten finishes.

Sustainability

Recycled Materials
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Duraslat™ XG is made from 90% of recycled hardwood fibres and reclaimed plastic materials, which reduces demand for virgin materials.

Low Pollutants
Our powder-coating process doesn't emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).

Powder Coat

Core
White (satin), Black (satin), Charcoal (satin), Palladium Silver (satin), Matt Black (matt), Pearl White (gloss)

Solid
Coffee (satin), Cove (satin), Monument (matt), Medium Bronze Kinetic (flat)

Care Instructions	<p><u>Duraslat™ XG</u> Simply wash down occasionally. Do not use high pressure cleaners.</p> <p><u>Powder-Coat</u> Carefully remove any loose surface deposits with a wet sponge or soft bristled brush.</p> <p>Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water.</p> <p>Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues.</p> <p>Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.</p> <p><u>Hot-Dip Galvanised Steel</u> For general cleaning of bulk contaminants such as dirt and the like, ordinary laundry soaps can be satisfactorily used.</p> <p>For more stubborn or larger areas, the use of a low-pressure wash (eg. a gurney gun) with just pure water or in conjunction with proprietary cleaning materials, such as car wash or truck wash, can be effective. It is important that the steel be washed down with fresh water after cleaning.</p> <p>The cleaning treatment of the galvanising should be conservative at first and then if the situation demands, the treatment can become steadily more aggressive. Also, wherever some form of mechanical abrasion or “scrubbing” is required, the use of a hard, plastic bristle brush is recommended. Steel bristle brushes are not to be used since they will cause discolouration.</p> <p>Mechanical methods of cleaning zinc surfaces can cause aesthetic issues. The “cleaned” areas are likely to contrast with adjacent untreated surfaces and may take a significant period of time to weather to a uniform colour. If aesthetics is a large concern, it is advisable to first test the cleaning method in an inconspicuous area in case the aesthetic effect is unappealing.</p>
Warranty	5-year warranty. View the warranty for more details.
Customisable	The Prospect bin corral is locally made and customisable to suit your requirements.
Additional Comments	<p>Doors can open to the front or rear of the units depending on the best access for your location.</p> <p>Compression lock prevents door rattling.</p>
