Robust block seat design with a concrete base. Hardwood and Duraslat™ XG battens with steel framing details in powder-coat or galvanised finishes.

Description

Featuring striking asymmetrical forms and robust materials that are based on our competition-winning designs for the Western Sydney Parklands Trust, the Prospect block seat is ideal for parkland and urban environments. With a solid precast concrete base that grounds the design, the seat is available in hardwood and Duraslat™ XG batten colours with steel framing details in powder-coat colours or a galvanised finish to blend in or contrast with the landscape it sits in.

Sustainability

Certified Hardwood
All hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world's largest forestry certification system.

Recycled Materials
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Duraslat™ XG is made from 90% of recycled hardwood fibres and reclaimed plastic materials, which reduces demand for virgin materials.

Low Pollutants
Our powder-coating process doesn't emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).
