DIAMANTE PLANTER

Add a touch of greenery with the cubic planter. High-performance concrete with stone aggregate in 3 colours, equipped with a recess at the base.

Description	Diamante, designed by Alessandro Lenarda, Michele Slaviero, and Raffaele Lazzari for Metalco, is based on a "build your own" seating kit concept. To add to the collection and the multiple configurations that can be created, the Diamante planter, designed by Michele Slaviero, can be used to add both a touch of greenery and visual interest. Made of precast concrete with stone aggregate in white, grey or dark grey colours and equipped with a recess at the base, the planter in cubic form is solid, stylish and highly functional.
How to Specify	Select your product Select optional anti-graffiti coating
Dimensions	750mmW x 750mmD x 600mmH
Frame	Body Precast high performance concrete (HPC) with stone aggregate 3 colours: White, Grey, Dark Grey Body Finish Velluto finish with polished top Optional Clear anti-graffiti coating (to the concrete plane)
Weight	Approx. 300kg
Made In	Europe
Lead Time	12+ weeks.
Assembly & Delivery	Product supplied in components packed on pallets. Lifting equipment required for receipt, assembly and placement of concrete product (by others). Supplied with ferrules, eyebolts and caps.
Fixing Detail	Freestanding

DIAMANTE PLANTER

Care Instructions	Precast Concrete Cleaning Remove any loose surface deposits with a brush. Regularly wash the coating using a solution of warm water and non-abrasive, pH neutral detergent solution (with low wax content). Thoroughly rinse the surfaces after cleaning to remove all residues. You can use a sponge, a soft bristle brush or pressure water cleaners. For pressure cleaners ensure you use cold or warm water and average pressure. Rinse after with fresh water and leave to dry. Do not use abrasive sponges, discs, or brushes. Do not use corrosive detergents, descaling agents, or acidic components (bleach, ammonia, vinegar, abrasive pastes). For cleaning marks or solidified substances from the surface use slightly abrasive sponges for non-stick ceramic pans, accurately and lightly treat the parts to be cleaned as above. Please check with Botton + Gardiner for advice relating to cleaning special circumstances (i.e. stains from paint, acid, etc.) as required. Maintenance For surfaces prone to additional wear like that used for street furniture, regular treatment is recommended (at least every 2 years) with products containing high wax content. Evenly apply the product with a soft cloth and polish with a circular motion. Avoid the products from being placed on surfaces subject to infiltrations or stagnant water puddles.
Warranty	5-year warranty. View the warranty for more details.
Additional Comments	Upon request, when technically feasible, it is possible to perform polishing operations. The finished products are treated with a protective varnish, and upon request, anti-graffiti treatment can also be also applied.
