SARAH BENCH

Classic, boxy, concrete bench. Its solid form grounds the design to its environment. Its simplicity allows the landscape in which it sits to shine.

Description	Sarah is a classic, iconic, boxy concrete bench, designed by Raffaele Lazzari. The solid precast concrete features white or grey granite and white or black marble stone aggregate for a touch of elegance. The form grounds the design firmly to its surrounding environment, while its simplicity allows it to blend in and let the overall space and landscape in which it sits, shine.
How to Specify	Select your product Select optional anti-graffiti coating
Dimensions	2200mmW x 605mmD x 450mmH
Frame	Body Precast concrete with stone aggregate 4 options: White Granite, Grey Granite, White Marble, Black Marble Body Finish Sandblasted sides and polished top Optional Clear anti-graffiti coating
Weight	620kg
Made In	Europe
Lead Time	12+ weeks.
Assembly & Delivery	Product supplied packed on pallets. Lifting equipment required for receipt and placement of concrete product (by others). Supplied with ferrules, eyebolts and caps.
Fixing Detail	Freestanding

SARAH BENCH

Care Instructions

Precast Concrete
Cleaning
Remove any loose surface deposits with a brush.

Regularly wash the coating using a solution of warm water and non-abrasive, pH neutral detergent solution (with low wax content).

Thoroughly rinse the surfaces after cleaning to remove all residues. You can use a sponge, a soft bristle brush or pressure water cleaners. For pressure cleaners ensure you use cold or warm water and average pressure. Rinse after with fresh water and leave to dry.

Do not use abrasive sponges, discs, or brushes.

Do not use corrosive detergents, descaling agents, or acidic components (bleach, ammonia, vinegar, abrasive pastes).

For cleaning marks or solidified substances from the surface use slightly abrasive sponges for non-stick ceramic pans, accurately and lightly treat the parts to be cleaned as above. Please check with Botton + Gardiner for advice relating to cleaning special circumstances (i.e. stains from paint, acid, etc.) as required.

Maintenance
For surfaces prone to additional wear like that used for street furniture, regular treatment is recommended (at least every 2 years) with products containing high wax content. Evenly apply the product with a soft cloth and polish with a circular motion.

Avoid the products from being placed on surfaces subject to infiltrations or stagnant water puddles.

Warranty

5-year warranty. View the warranty for more details.

Additional Comments

Upon request, if the product allows it, it is possible to perform polishing operations.

The finished products are treated with a revitalising varnish and, if requested, anti-graffiti treatment can be applied.
