Cylindrical single litter bin for indoors or outdoor undercover. 360° panel design in hardwood or Duraslat™ XG finish, stainless-steel lid, plinth dbase.

Description	<p><b>Bronte Litter Bin Single</b> is an enduring classic—trusted in shopping centres for over 20 years and celebrated for its timeless design and practical performance. The warmth of Hardwood or Duraslat™ XG battens complements its clean, functional form, bringing natural appeal to high-traffic environments.</p> <p>A hygienic stainless-steel lid is easy to wipe down, while the spun form features softened edges for added safety. The gently sloped chute prevents waste build-up on top, and thoughtful additions like a non-scratching plinth and optimally positioned bump rail help minimise impact damage from trolleys. Bronte continues to set the standard for stylish, hard-wearing waste solutions.</p>
How to Specify	<p>Select your bin body finish - hardwood or Duraslat™ XG</p> <p>Select your lid type - concave or convex</p> <p>Select optional Pacific hood for outdoor use</p> <p>Select your fixing</p>
Sustainability	<p><b>Certified Hardwood</b></p> <p>All hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world’s largest forestry certification system.</p> <p><b>Recycled Materials</b></p> <p>We locally source our steel. It means we know it uses recycled content and is 100% recyclable.</p> <p><b>Duraslat™ XG</b> is made from 90% of recycled hardwood fibres and reclaimed plastic materials, which reduces demand for virgin materials.</p> <p><b>Low Pollutants</b></p> <p>Our powder-coating process doesn’t emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).</p>
Finishes	<p>40X20 RHS Aluminium Battens</p>

Assembly & Delivery	Shipped fully assembled.
Fixing Detail	Freestanding or surface fixed by others. Anchors not included.
Care Instructions	<p><u>Hardwood</u></p> <p>Cleaning</p> <p>Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth.</p> <p>Oiling</p> <p>Oiling of timber will postpone natural greying, repel moisture, improve mould resistance, help maintain a smooth surface texture and enhance the grain and colour.</p> <p>To maintain, lightly sand rough areas of timber and brush on one coat of timber decking oil every 6 months or as required.</p> <p><u>Duraslat™ XG</u></p> <p>Cleaning</p> <p>Simply wash down occasionally. Do not use high pressure cleaners.</p> <p><u>Stainless Steel</u></p> <p>Wash the surface regularly using warm water containing soap or mild detergents and rinse the surface with fresh water after cleaning.</p> <p>When polishing the surface with a soft dry cloth to ensure all moisture is removed, follow the direction of the grain finish.</p> <p>Use a brush or soft damp cloth to remove loose deposits. Use a cream cleanser and soft cloth for difficult deposits.</p> <p>Use “Star Brite Rust Stain Remover” to remove tea staining and “Star Brite Chrome &amp; Stainless Steel Polish” to protect the surface after cleaning.</p> <p>Never use cleaners containing harsh abrasives or high bleach contents. Prolonged contact with chlorine-based cleaners will cause surface pitting, which cannot be repaired.</p> <p>Never use abrasive materials such as scouring pads, steel wool or metallic scrapers.</p> <p>For stubborn stains or where “deep cleaning” is required, a mild abrasive cleaner or rust remover may be required.</p>
Warranty	5-year warranty. View the <a href="#">warranty</a> for more details.
