WHITEHAVEN BIN

Bins » Bin Stations

Single, double, triple bin stations with tray return. 120L or 240L capacity. Stainless steel frame. Laminate, v-groove compact laminate options.

Description The Whitehaven bin with tray return is the ultimate food court bin. Tried and tested over many decades, this bestseller's hardy stainless steel frame protects the bin from trolley damage and is sure to outperform your expectations. Finishes include laminate, v-groove compact laminate options. Available in an extensive range of sizes with optional cleaners storage cupboard.

Sustainability **Certified Materials**
We use laminates that carry internationally recognised Environmental Product Declarations (EPDs).

Recycled Materials
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Low Pollutants
Our powder-coating process doesn't emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).

WHITEHAVEN BIN

Bins » Bin Stations

Lead Time 6-8 weeks

Assembly & Delivery Due to their weight, double and triple Whitehaven bins will require a forklift to receive delivery of goods.

Fixing Detail Surface fixed by others. Anchors not included.

Care Instructions

Laminates | Laminex®
A damp cloth will remove spills and greasy spots. Rub with a clean dry cloth to bring back brightness. Occasionally clean with mild dishwashing detergent. To remove heavy build-up of dirt use cleaners such as Mr Muscle, Windex or Ajax Spray n Wipe spray cleaners.

Do not use strongly acidic, alkaline cleaners or bleach for normal cleaning as these might etch the surface

Powder-Coat
Carefully remove any loose surface deposits with a wet sponge or soft bristled brush.

Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water.

Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues.

Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.

Stainless Steel
Wash the surface regularly using warm water containing soap or mild detergents and rinse the surface with fresh water after cleaning.

When polishing the surface with a soft dry cloth to ensure all moisture is removed, follow the direction of the grain finish.

Use a brush or soft damp cloth to remove loose deposits. Use a cream cleanser and soft cloth for difficult deposits.

Use "Star Brite Rust Stain Remover" to remove tea staining and "Star Brite Chrome & Stainless Steel Polish" to protect the surface after cleaning.

Never use cleaners containing harsh abrasives or high bleach contents. Prolonged contact with chlorine-based cleaners will cause surface pitting, which cannot be repaired.

Never use abrasive materials such as scouring pads, steel wool or metallic scrapers.

For stubborn stains or where "deep cleaning" is required, a mild abrasive cleaner or rust remover may be required.
