Care Instructions	**Care + Maintenance** **Powder-coat** Regular cleaning helps protect the long-term appearance of powder-coated finishes. Wash surfaces with warm water and a non-abrasive, pH-neutral detergent, using a soft cloth or brush, then rinse thoroughly. Avoid harsh solvents, abrasive cleaners and high-pressure washing, as these may damage the coating. In coastal, marine or industrial environments, increase cleaning frequency to minimise the build-up of salts and pollutants which can accelerate weathering.

Customisable	Made locally, custom laser cut-out designs are available to suit your project requirements that can include adding your own logo or design. Optional fixed seat pad available. Indoor use only.
Additional Comments	Powder-coat recommendation is to use a textured or matt finish. The large flat surface areas of powder-coating can highlight imperfections or uneven surfaces when a gloss or satin finish is used. All Botanist pieces feature a strong support structure and anti-theft security feet. Outdoor use. Suitable for marine locations with suitable fixing hardware.
