Bins » Litter Bins

Modern litter bin for indoors and out. Single, double, triple waste channels. Cladding in 6 hardwood batten colours. Stainless-steel lid and plinth.

## Description

The reuleaux triangle-shaped Avoca litter bin features soft curves that gives it a relaxed fit with any space. Equally at home indoors or outdoors, the shape cleverly allows for the option of single, dual or triple waste channels inside a single compact footprint. Clear signage is easily recognisable by customers and saves labour in waste management. Finishes include cladding in 6 hardwood batten colours in a variety of profiles combined with a satin-polished stainless-steel lid and plinth.

## Made In

Australia

## Dimensions

580mmW x 560mmD x 820mmH

For chute sizes see dimensions in downloads tab.

## Capacity

Single  
90L polyethylene liner (internal use) or  
55L galvanised steel liner (external use)

Double  
1 x 30L, 1 x 60L galvanised steel liners

Triple  
3 x 40L galvanised steel liners

**Sustainability**

Certified Hardwood  
All hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world's largest forestry certification system.

Recycled Materials  
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Low Pollutants  
Our powder-coating process doesn't emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).

---

**Warranty**                            5-year warranty. View the [warranty](#) for more details.

---

**Lead Time**                           6-8 weeks

---

**Assembly & Delivery**          Shipped fully assembled on pallets.

**Care Instructions**

Hardwood  
Cleaning  
Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth.

Oiling  
Oiling of timber will postpone natural greying, repel moisture, improve mould resistance, help maintain a smooth surface texture and enhance the grain and colour.

To maintain, lightly sand rough areas of timber and brush on one coat of timber decking oil every 6 months or as required.

Stainless Steel  
Wash the surface regularly using warm water containing soap or mild detergents and rinse the surface with fresh water after cleaning.

When polishing the surface with a soft dry cloth to ensure all moisture is removed, follow the direction of the grain finish.

Use a brush or soft damp cloth to remove loose deposits. Use a cream cleanser and soft cloth for difficult deposits.

Use “Star Brite Rust Stain Remover” to remove tea staining and “Star Brite Chrome & Stainless Steel Polish” to protect the surface after cleaning.

Never use cleaners containing harsh abrasives or high bleach contents. Prolonged contact with chlorine-based cleaners will cause surface pitting, which cannot be repaired.

Never use abrasive materials such as scouring pads, steel wool or metallic scrapers.

For stubborn stains or where “deep cleaning” is required, a mild abrasive cleaner or rust remover may be required.

---

**Additional Comments** Manage recycling by splitting your waste streams.  
Chutes act as limiters to signal recycling and save labour in sorting.
