MAROUBRA CAPSULE BIN

Bins » Litter Bins

Unique, compact, single bin for commercial spaces, indoors or undercover. 70L capacity. Powder-coated steel frame in 27 colours. 4 cut-out designs.

Description	A unique, compact design, Maroubra is a robust capsule bin, capable of handling the high demands of public spaces, indoors and undercover outdoors. The style without a hood keeps your sight lines clear and has a stable base for safety and glides to protect your floors. The cut-out designs create a distinctive feature with visual appeal that contrasts with the galvanised inner liner. The perforated surface deters graffiti by markers and is also finger safe for children. Finishes include a plain or 4 cut-out designs and 27 powder-coat colours to suit many commercial spaces.

Fixing Detail

Freestanding with fixed glides.

How to Specify

Select your body pattern

Select your body powder-coat colour

Select your freestanding base powder-coat colour

Care Instructions

Powder-Coat

Carefully remove any loose surface deposits with a wet sponge or soft bristled brush.

Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water.

Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues.

Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.

MAROUBRA CAPSULE BIN

Bins » Litter Bins

Customisable

The bin body can be left plain or perforated.

Customise the base to your brand colours or waste channels.

Install bins in pairs to create general waste and recycling units.

Options to add logos as part of the perforations on your single bins for extra branding.

Additional Comments

The square freestanding base is stable for loose use, with non-scratching glides to protect flooring.

The galvanised liner won't melt if lit cigarette butts are accidentally thrown into the bin.

The perforated body not only casts distinctive shadowing and contrasts with the galvanised inner liner but also deters marker vandalism.

Perforation designs are child safe, conforming to AS4685.1 finger entrapment guidelines on play equipment.

The low profile is ideal for retail locations to maintain tenancy sight lines.
