Detailed single bin housings with a hood for outdoor use. Panels in hardwood, Duraslat™ XG colours or powder-coated perforation patterns.

---

## Description

**Maitland Bin Housing Single** offers elegant and durable waste management solution for streetscapes, parks, and urban environments. Its folded, sculptural polished lid creates a dynamic visual statement, while its robust construction ensures decades of reliable performance. The Maitland also coordinates seamlessly with the Urban and Prospect street furniture collections.

Customise your design with panels available in hardwood, Duraslat™ XG colours, or powder-coated perforation patterns, allowing you to create a sophisticated, cohesive look across your public spaces.

---

## How to Specify

Select your wheelie bin capacity - 120L or 240L  
Select your feature panel design  
Select your feature panel powder-coat colour  
Select your side panel finish  
Select your side panel colour  
Opt to add the skillion hood  
Select your skillion hood finish

---

## Sustainability

### Certified Hardwood

All hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world's largest forestry certification system.

### Recycled Materials

We locally source our steel and aluminium. It means we know it uses recycled content and is 100% recyclable.

Duraslat™ XG is made from 90% of recycled hardwood fibres and reclaimed plastic materials, which reduces demand for virgin materials.

### Low Pollutants

Our powder-coating process doesn't emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).

## Care Instructions

### Hardwood

#### Cleaning

Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth.

#### Oiling

Oiling of timber will postpone natural greying, repel moisture, improve mould resistance, help maintain a smooth surface texture and enhance the grain and colour.

To maintain, lightly sand rough areas of timber and brush on one coat of timber decking oil every 6 months or as required.

### Duraslat™ XG

#### Cleaning

Simply wash down occasionally. Do not use high pressure cleaners.

### Powder-Coat

#### Cleaning

Carefully remove any loose surface deposits with a wet sponge or soft bristled brush.

Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water.

Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues.

Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.

### Aluminium

Aluminium used in public areas should be cleaned regularly with non-abrasive cleaning agents.

Wash the surface regularly using warm water containing soap or mild detergents.

Hand rubbing is often used for small work, for larger projects utensils such as soft fibre brushes may be more practical.

Rinse the surface with fresh water after cleaning.

Polishing the surface with a soft dry cloth after cleaning.

Never use abrasive materials such as scouring pads, steel wool or metallic scrapers.

Never use cleaners containing harsh abrasives or high bleach contents

---

## Warranty

5-year warranty. View the [warranty](#) for more details.

## Customisable

The Maitland bin is locally made and customisable to suit your requirements.

---

## Additional Comments

### Options

Optional skillion hood looks great, prevents your liner filling with rainwater, stops dumping of large garbage bags and deters scavenging birds.

### Additional Info

The polished aluminium lid won't corrode or tea stain and can be buffed back to new.

Compression lock tightens with a turn of the key and prevents rattling noise for peaceful streets.

Perforation designs are child safe, conforming to AS4685.1 finger entrapment guidelines on play equipment.

Heavy duty butt hinges will keep your doors level and issue free throughout the life of the bin.
