PROSPECT BIN CORRAL TRIPLE

Bins » Bin Housings

Robust triple wheelie bin enclosure ideal for parklands. Galvanised or powder-coated steel frame with Duraslat™ XG batten finishes.

Description	<p>Prospect Bin Corral Triple offers maximum waste capacity with a strong, architectural presence—ideal for remote locations, regional parks, and unsupervised streetscapes. Its striking asymmetrical corner detailing and robust form make it as visually distinctive as it is practical.</p> <p>Designed to accommodate three wheelie bins, the corral’s enclosed structure helps limit oversized waste and prevent misuse. <i>Also available in Double configuration</i>, Prospect is built with a galvanised or powder-coated steel frame and finished with Duraslat™ XG battens for long-lasting performance and a refined streetscape aesthetic.</p>
Sustainability	<p>Recycled Materials We locally source our steel. It means we know it uses recycled content and is 100% recyclable.</p> <p>Duraslat™ XG is made from 90% of recycled hardwood fibres and reclaimed plastic materials, which reduces demand for virgin materials.</p> <p>Low Pollutants Our powder-coating process doesn’t emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).</p>
Powder Coat	<p>Core</p> <p>White (satin), Black (satin), Charcoal (satin), Textura Monument (textured), Palladium Silver (satin), Matt Black (matt), Pearl White (gloss)</p> <p>Solid</p> <p>Coffee (satin), Cove (satin), Monument (matt), Medium Bronze Kinetic (flat)</p> <p>Textured</p> <p>Core Ten (textured metallic), Asteroid (textured metallic), Bass (textured metallic), Textura Black (textured), Textura White (textured)</p> <p>Signature</p> <p>Deep Ocean (satin), Wedgewood (satin), Mangrove (satin), Territory Red (matt), Claypot (satin), Paperbark (satin)</p> <p>Bold</p> <p>Bondi Blue (gloss), Leaf (satin), Sensation (gloss), Lobster (satin), Moonlight (satin)</p>

Care Instructions

Duraslat™ XG
Simply wash down occasionally. Do not use high pressure cleaners.

Hot-Dip Galvanised Steel
For general cleaning of bulk contaminants such as dirt and the like, ordinary laundry soaps can be satisfactorily used.

For more stubborn or larger areas, the use of a low-pressure wash (eg. a gurney gun) with just pure water or in conjunction with proprietary cleaning materials, such as car wash or truck wash, can be effective. It is important that the steel be washed down with fresh water after cleaning.

The cleaning treatment of the galvanising should be conservative at first and then if the situation demands, the treatment can become steadily more aggressive. Also, wherever some form of mechanical abrasion or “scrubbing” is required, the use of a hard, plastic bristle brush is recommended. Steel bristle brushes are not to be used since they will cause discolouration.

Mechanical methods of cleaning zinc surfaces can cause aesthetic issues. The “cleaned” areas are likely to contrast with adjacent untreated surfaces and may take a significant period of time to weather to a uniform colour. If aesthetics is a large concern, it is advisable to first test the cleaning method in an inconspicuous area in case the aesthetic effect is unappealing.

Warranty

5-year warranty. View the [warranty](#) for more details.

Customisable

The Prospect bin corral is locally made and customisable to suit your requirements.

Additional Comments

Doors can open to the front or rear of the units depending on the best access for your location.

Compression lock prevents door rattling.
