HENLEY BIN STATION DOUBLE

Bins » Bin Stations

Double top loading bin. Optional cleaner’s cupboard. 120L. Stainless steel frame. Laminate, v-groove compact laminate options.

Description	<p>Henley Bin Station Double is a high-capacity, top-loading waste solution designed for busy food courts and public spaces where efficient, tray-free waste disposal is essential. The contact-free top-loading design supports hygiene, while the ergonomic access makes servicing easy for cleaning staff.</p> <p>Tested over years of use, Henley features a hardy stainless-steel frame that protects against trolley damage and wear, making it ideal for both indoor and outdoor settings. Also available in Single capacity, with a wide range of sizes and laminate finishes, Henley can also be configured with an optional cleaner’s storage cupboard for added functionality.</p>
How to Specify	Select your panel finish - laminate or v-grooved compact
Sustainability	<p>Certified Materials We use laminates that carry internationally recognised Environmental Product Declarations (EPDs).</p> <p>Recycled Materials We locally source our steel. It means we know it uses recycled content and is 100% recyclable.</p>

Signage	<div>120L</div> <div>Banner Small</div> <div>Plaque - HL 1</div> <div>Badge</div>
Made In	Australia
Lead Time	4-6 weeks
Assembly & Delivery	Due to their weight, Henley double and triple bin modules will require a forklift to receive goods on delivery.
Fixing Detail	Surface fixed by others. Anchors not included.
Care Instructions	<div><div>Laminates Laminex®</div><div>A damp cloth will remove spills and greasy spots. Rub with a clean dry cloth to bring back brightness. Occasionally clean with mild dishwashing detergent. To remove heavy build-up of dirt use cleaners such as Mr Muscle, Windex or Ajax Spray n Wipe spray cleaners.</div><div>Do not use strongly acidic, alkaline cleaners or bleach for normal cleaning as these might etch the surface.</div><div>Stainless Steel</div><div>Wash the surface regularly using warm water containing soap or mild detergents and rinse the surface with fresh water after cleaning.</div><div>When polishing the surface with a soft dry cloth to ensure all moisture is removed, follow the direction of the grain finish.</div><div>Use a brush or soft damp cloth to remove loose deposits. Use a cream cleanser and soft cloth for difficult deposits.</div><div>Use “Star Brite Rust Stain Remover” to remove tea staining and “Star Brite Chrome & Stainless Steel Polish” to protect the surface after cleaning.</div><div>Never use cleaners containing harsh abrasives or high bleach contents. Prolonged contact with chlorine-based cleaners will cause surface pitting, which cannot be repaired.</div><div>Never use abrasive materials such as scouring pads, steel wool or metallic scrapers.</div><div>For stubborn stains or where “deep cleaning” is required, a mild abrasive cleaner or rust remover may be required.</div></div>
