Avoca Litter Bin Double + Triple Detail

AVOCA BIN LITTER BIN TRIPLE

Modern triple litter bin for indoors and out. Cladding in hardwood batten. Stainless-steel lid and plinth.

Description

Avoca Litter Bin Triple maximises waste separation within a single compact footprint, housing three internal waste channels beneath its smooth, curved profile. The design is *also available in Single or Double configurations* to suit a variety of site requirements and capacity needs.

The reuleaux triangle form makes it a natural fit in public spaces, while clear signage supports intuitive use and efficient waste management. Clad in your choice of hardwood batten and profiles, and finished with a satin-polished stainless-steel lid and plinth.

How to Specify

Select your capacity
Select your signage type
Select your slat finish
Select your fixing type

Sustainability

Certified Hardwood
All hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world's largest forestry certification system.

Recycled Materials
We locally source our steel. It means we know it uses recycled content and is 100% recyclable.

Low Pollutants
Our powder-coating process doesn't emit Volatile Organic Compounds (VOCs) and has Environmental Product Declarations (EPDs).

Finishes

Lid
3mm stainless steel, satin polished

Body
Exterior: Hardwood battens

Interior: Lacquered hardwood in a rectangular, bump or flute-shaped batten.

Plinth
Stainless steel, satin polished

Made In	Australia
Lead Time	6-8 weeks
Assembly & Delivery	Shipped fully assembled.

AVOCA BIN LITTER BIN TRIPLE

Fixing Detail	Freestanding or surface fixed by others. Anchors not included.
Care Instructions	Hardwood Cleaning Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth. Finish Our hardwood is finished with Sikkens Cetol BLX-Pro, a water-based, semi-transparent stain that protects the timber from weathering and enhances its grain and colour. To maintain, clean and lightly sand the timber, then brush on 2–3 coats of Cetol BLX-Pro in the direction of the grain every 12 months, or sooner if it starts to grey. Stainless Steel Wash the surface regularly using warm water containing soap or mild detergents and rinse the surface with fresh water after cleaning. When polishing the surface with a soft dry cloth to ensure all moisture is removed, follow the direction of the grain finish. Use a brush or soft damp cloth to remove loose deposits. Use a cream cleanser and soft cloth for difficult deposits. Use “Star Brite Rust Stain Remover” to remove tea staining and “Star Brite Chrome & Stainless Steel Polish” to protect the surface after cleaning. Never use cleaners containing harsh abrasives or high bleach contents. Prolonged contact with chlorine-based cleaners will cause surface pitting, which cannot be repaired. Never use abrasive materials such as scouring pads, steel wool or metallic scrapers. For stubborn stains or where "deep cleaning" is required, a mild abrasive cleaner or rust remover may be required.
Warranty	5-year warranty. View the warranty for more details.
Additional Comments	Manage recycling by splitting your waste streams. Chutes act as limiters to signal recycling and save labour in sorting.
