# MANLY LITTER BIN DOUBLE

Bins » Litter Bins

Cylindrical double litter bins for indoors or out undercover. 360° panel design in laminate or stainless steel finishes.

Description	<p><b>Manly Litter Bin Double</b> features a contemporary cylindrical form designed to elevate public spaces with smooth, minimalist lines and a refined silhouette. Ideal for indoor or undercover outdoor areas, it offers practical waste separation while maintaining a cohesive, timeless aesthetic. The 360° panel design, available in durable laminate or stainless steel finishes, integrates seamlessly with curved architecture and modern interiors.</p> <p>Thoughtfully engineered for ease of use and durability, Manly Double includes a folding hinged lid for safe, simple liner removal, and a robust spun stainless steel top with softened edges for added safety in high-traffic environments. Customisable lid configurations include concave and convex chutes to guide recycling streams, with convex chutes acting as limiters and promoting correct disposal habits.</p> <p><i>Also available in a Single configuration</i>, Manly offers flexibility for varying waste needs while maintaining a consistent visual language. Built to endure, it is a versatile, timeless addition to any public environment.</p>

## Care Instructions

### Laminates | Laminex®

A damp cloth will remove spills and greasy spots. Rub with a clean dry cloth to bring back brightness. Occasionally clean with mild dishwashing detergent. To remove heavy build-up of dirt use cleaners such as Mr Muscle, Windex or Ajax Spray n Wipe spray cleaners.

Do not use strongly acidic, alkaline cleaners or bleach for normal cleaning as these might etch the surface

### Powder-Coat

Carefully remove any loose surface deposits with a wet sponge or soft bristled brush.

Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water.

Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues.

Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.

### Stainless Steel

Wash the surface regularly using warm water containing soap or mild detergents and rinse the surface with fresh water after cleaning.

When polishing the surface with a soft dry cloth to ensure all moisture is removed, follow the direction of the grain finish.

Use a brush or soft damp cloth to remove loose deposits. Use a cream cleanser and soft cloth for difficult deposits.

Use "Star Brite Rust Stain Remover" to remove tea staining and "Star Brite Chrome & Stainless Steel Polish" to protect the surface after cleaning.

Never use cleaners containing harsh abrasives or high bleach contents. Prolonged contact with chlorine-based cleaners will cause surface pitting, which cannot be repaired.

Never use abrasive materials such as scouring pads, steel wool or metallic scrapers.

For stubborn stains or where "deep cleaning" is required, a mild abrasive cleaner or rust remover may be required.

## Additional Comments

Lid Combinations  
2 x Concave (down) chutes  
1 x Concave (down) and 1 x Convex (up) chute  
The convex chute acts as a waste limiter on recycling compartments or assists with rain runoff

Additional Info  
Manage recycling by splitting your waste streams. We recommend having one convex 100mm recycling chute as a limiter to signal recycling cue at point of disposal.

Double size has a folding hinged lid for easy removal of the liners.

Durable spun stainless steel lid for hard use environments with softened edges for safety.
