

BRUNSWICK DESIGN FEATURES

Introducing our Brunswick furniture, a family of products designed by Botton + Gardiner for use in shopping centre pods, hotels, and office break out spaces. Inspired by an industrial-luxe aesthetic touched by elements of Brutalist architecture, Brunswick features raw functionality, stark silhouettes, no fuss geometric shapes, honest materiality and minimalistic upholstery planes. Robustness and functionality in high traffic communal spaces was front of mind. The extensive colour palette of standard finishes allows for flexible control over the pieces you select.
