

ELEMENTS

FINISHES

MILD STEEL

Durable, sturdy and low cost - mild steel is an ideal material for use in commercial grade furniture frames. With a variety of finishes and available in an array of profiles and gauges it makes for a versatile material.

CHROME PLATED

POWDERCOATED - BLACK

POWDERCOATED - WHITE

CARE + MAINTENANCE

Always use a clean, soft, white cloth and always test cleaning in an inconspicuous area first. Wipe surface with a clean, soft cloth dampened with a mild solution of liquid detergent and warm water. For more difficult stains methylated spirits can be used in place of the detergent and water mixture.

BRUSHED STAINLESS STEEL

With a hard wearing and elegant finish, stainless steel has inherent structural integrity and corrosion resistance making it ideal for use in commercial grade furniture frames.

NATURAL

BLACK

BRASS

BRONZE

CARE + MAINTENANCE

Always use a clean, soft, white cloth and always test cleaning in an inconspicuous area first. Wipe surface with a clean, soft cloth dampened with a mild solution of liquid detergent and warm water. For more difficult stains methylated spirits or stainless steel cleaners can be used in place of the detergent and water mixture.

STAINED HARDWOOD

A naturally beautiful material - hardwood has great natural structure and its machinability results in beautiful forms apropos for application in furniture design. With a natural warmth and available in a variety of stained tones, hardwood adds a classic style to furniture design.

OAK

WALNUT

WENGE

JAPAN BLACK

CARE + MAINTENANCE

Always use a clean, soft, white cloth and always test cleaning in an inconspicuous area first. Wipe surface with a clean, soft cloth dampened with a mild solution of liquid detergent and warm water. Ensure surface is thoroughly dried and no moisture left on surface. Avoid using any abrasive materials or contaminated clothes as these will scratch the surface finish.

STAINED VENEER

Natural timber veneer is a cost effective way of adding a classic hardwood element to furniture design. Providing the same look and texture as hardwood, veneer makes for an elegant surfacing material.

JAPAN BLACK

CARE + MAINTENANCE

Always use a clean, soft, white cloth and always test cleaning in an inconspicuous area first. Wipe surface with a clean, soft cloth dampened with a mild solution of liquid detergent and warm water. Ensure surface is thoroughly dried and no moisture left on surface. Avoid using any abrasive materials or contaminated clothes as these will scratch the surface finish.

LAMINATE

Laminate panels have a high-pressure decorative laminate surface that offers chemical, stain and abrasion resistance for long lasting durability.

OAK

LIGHT WALNUT

WENGE

JAPAN BLACK

CARE + MAINTENANCE

For general care and maintenance, simply wipe away most spills or marks with a damp microfibre cloth, or use an all purpose cleaner such as Windex spray cleaner or Ajax Spray n Wipe. Rubbing gently with a clean, dry cloth brings back the brightness of laminates. DO NOT use abrasive or polishing materials.

TEMPERED GLASS

With its hard wearing and easily cleaned surface, glass further enhances the serviceability of table tops. Tempered (toughened) glass has increased strength over standard glass, making it a safe and effective material for use in commercial furniture.

CLEAR

MIRROR

BLACK

CARE + MAINTENANCE

Always use a clean, soft, white cloth and always test cleaning in an inconspicuous area first. Wipe surface with a clean, soft cloth dampened with a mild solution of liquid detergent and warm water. For more difficult stains methylated spirits can be used in place of the detergent and water mixture.

ENGINEERED STONE

Engineered for modern living, our stone combines the beauty and prestige of natural stone with the hard-wearing qualities of quartz. These luxurious surfaces offer high performance with low maintenance and no need for sealing or waxing. Stone surfaces are manufactured with a minimum of 93% quartz which makes the surface highly durable.

CARRIS

COAL

PATE

CARE + MAINTENANCE

To keep your Engineered Stone clean, simply wipe with a soft cloth and a pH neutral household liquid detergent. Avoid exposure to products with high pH levels / solvents. If your Engineered Stone comes into contact with such products, rinse immediately to neutralise the effect, and then follow usual cleaning procedure.
