

# POWDERCOATS

Powdercoating gives a uniform, durable, high quality and attractive finish that is low in VOCs. Powdercoated surfaces have good flexibility and wear resistance giving them long term performance in high traffic areas. This cost-effective finish has great UV resistance and durability in the elements.

## CORE COLOURS

The everyday favourites run so regularly there are no additional charges.

**WHITE**  
Interpon D1000 White  
*Satin GA124A*

**CHARCOAL**  
Interpon D1000 Charcoal  
*Satin GL180A*

Interpon Color Vitality Sensation  
*Gloss GF049A*

**LOBSTER RED**  
Interpon Color Vitality Lobster  
*Satin GG155A*

**MOONLIGHT YELLOW**  
Dulux Duratec Intensity Moonlight  
*Satin 9002004S*

## CARE + MAINTENANCE QUICK GUIDE

To keep powdercoated finishes in good condition wash regularly to reduce build up of salts and pollutants which can reduce its lifespan. Areas of higher pollution and airborne salts generally require more frequent cleaning.

**CLEANING** - Carefully remove any loose surface deposits with a wet sponge or soft bristled brush. Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water. Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues. NEVER use thinners, abrasive cleaning agents, alcohol based, acid or alkali cleaning agents.
